**AMINOTRIAZINE CONDENSATION PRODUCT, USE OF AN
AMINOTRIAZINE CONDENSATION PRODUCT AND METHOD FOR THE
PRODUCTION OF THE AMINOTRIAZINE CONDENSATION PRODUCT**

ABSTRACT OF THE DISCLOSURE

The invention relates to an aminotriazine condensation product, especially a melamine condensation product, produced by reacting aminotriazine, particularly melamine, with an oxocarboxylic acid derivative. The invention also relates to the use of the aminotriazine condensation product and to a method for the production thereof. The aminotriazine condensation product obtained offers a wide range of possible applications by virtue of the simple accessibility thereof for derivatizations and, by virtue of the absence of formaldehyde, the aminotriazine condensation product is more health-friendly than known condensation products.
